# Gaurav Kumar Singh

## Healthcare Product Manager

I'm looking for Healthcare Product Manager, Associate Product Manager, Product Analyst and HealthTech product roles.

New Delhi, India gauravkumarsingh773@gmail.com linkedin.com/in/gaurav-singh-product
github.com/gaurav-product

### SUMMARY

- 3+ years in HealthTech product, user research and behavioral analytics — 30+ structured user interviews, 500+ users tracked, findings adopted across 3 feature iterations.
- Owned a digital mindfulness platform end to end, PRD through release, where cohort analysis across 50+ cohorts supported a 20–25% lift in user consistency.
- Currently building an AI health product with the Claude API, Cursor and Lovable, and seeking Healthcare Product Manager, Associate Product Manager, Product Analyst or HealthTech product roles.

### EXPERIENCE

**Associate Product Manager — Adhyatm Sadhna Kendra** May 2025 – Apr 2026
New Delhi

- Owned discovery through release for Evamastu, a digital mindfulness platform; wrote the full PRD and shipped a Parent Dashboard, Child Wellness Assessment, and 4 adaptive cognitive games.
- Built a cohort analytics system across 50+ participant cohorts; found 2 funnel drop-offs that drove an onboarding redesign, lifting consistency 20–25% in 6 weeks.
- Ran Agile sprint planning and backlog grooming; scored 12+ feature requests with RICE and MoSCoW to hold roadmap discipline and cut scope creep.

**Product Management Intern — Adhyatm Sadhna Kendra** Nov 2024 – Apr 2025
New Delhi

- Supported early discovery for Evamastu; ran parent and facilitator interviews and turned findings into the problem statements behind the first product brief.
- Built the initial backlog and competitive scan; wrote user stories and acceptance criteria for the first assessment module.

**Research Expert, Wellness Team — Live Your Best Life (USA)** Sep 2022 – Jul 2024
Remote

- Conducted 30+ structured user interviews; synthesized behavioral patterns and onboarding drop-offs into recommendations adopted across 3 major feature iterations.
- Tracked engagement metrics for 500+ users and delivered weekly insight reports that shaped sprint prioritization.

### PRODUCT PROJECTS

**CareConnect — Post-Discharge Care Accountability Layer** MVP · NOT IN PRODUCTION Sep 2026
Self-directed product build

- Repositioned from a caregiver marketplace to a post-discharge care accountability layer after discovery contradicted the original hypothesis; documented the pivot as a decision record.
- Built a working MVP (React, Express, TypeScript, SQLite) with 65 unit and integration tests, 30 end-to-end journeys, and a claim register grading every conclusion by evidence strength. Not in production.

**Aaroh — AI Root-Cause Health Platform** IN PROGRESS May 2026 – Present
Founder & Product Manager

- Ran 20+ customer discovery interviews; translated findings into a RICE/MoSCoW-prioritized roadmap and end-to-end product vision.
- Authored PRDs and user stories for conversational intake, root-cause mapping, and personalized recommendations.
- Built and validated the MVP with Claude API, Lovable and Cursor; defined the North Star Metric and instrumented activation, retention and adoption analytics.
- Now running a strategy reset on positioning and scope.

**PhonePe Smart Spend Coach — Feature Design & Growth Case** COMPLETED Aug 2026
Masai School × IIT Roorkee

- Scored 5 candidate features with RICE, wrote the PRD for the winner, built a 5-screen Figma prototype tested with 7 users.
- Analysed a 40,000-user pilot funnel (7.14% end-to-end), prioritized the 70% insight-to-action drop-off, and designed a 21-day A/B test with guardrail metrics.

**GharGyaan — Everyday self-care & Indian household knowledge** IN PROGRESS Sep 2026
Self-directed product build

- Mobile-first PWA for everyday self-care and Indian traditional knowledge, with evidence labels on guidance and safety escalation toward professionals. Working name.
- Early build — no users and no measured outcomes yet.

**Nexus — Personal Decision & Context Engine** IN PROGRESS Sep 2026
Self-directed 0→1 build

- Evidence-first "situation inbox" surfacing conflicts, changes, commitments and missing information across Gmail, Calendar and uploaded documents. Not a chatbot or second brain.
- MVP in demo mode; repository public. No adoption or accuracy figures measured yet.

## EDUCATION

**AI-Enabled Product Management Program — Masai School and IIT Roorkee Faculty** Dec 2025 – Aug 2026

**MCA — Chaudhary Charan Singh University, Meerut** 2022–2024

**M.Sc. — S-VYASA University, Bengaluru** 2020 – 2022

**B.Sc. — University of Patanjali, Haridwar** 2017 – 2020

## CERTIFICATIONS & LEARNING

**Professional certifications:** Anthropic — Claude Developer Platform, Claude Agent Development, Model Context Protocol (MCP); Product & AI — AI in Product Management and Product Strategy — Product School, Product Analytics — Pendo, Qualcomm AI Upskilling, Generative AI Mastermind

**Courses & learning paths:** Anthropic — Claude Code Learning Path

## SKILLS

**Product:** Discovery, PRD Writing, Roadmapping, MVP Definition, User Stories, RICE, MoSCoW, Agile, Sprint Planning

**Analytics & research:** Funnel Analysis, Cohort Analysis, A/B Testing, North Star Metrics, KPIs, User Interviews, Journey Mapping, Google Analytics

**Ai & tools:** Prompt Engineering, Claude API, MCP, Cursor, Lovable, Emergent, Figma, Jira, Notion, Miro, GitHub, Excel
