Available to interview immediately

SUMMARY

Health and wellness product and research professional with 3+ years across discovery, delivery and analytics. Owned a digital mindfulness platform end to end, PRD through release, where cohort analysis across 50+ participant groups drove a 20–25% lift in user consistency. Ran 30+ structured user interviews for a US wellness company and led its product research, competitive analysis and A/B testing. Builds health products with safety designed in: a post-discharge care record, a non-diagnostic health platform with 8 consented practitioners, and a self-care app gated by a 214-case safety test suite.

SKILLS

Product and delivery: Requirements gathering, PRD writing, User stories & acceptance criteria, Roadmapping, MVP definition, RICE, MoSCoW, Agile, Sprint planning, Backlog grooming
Research and analytics: User & stakeholder interviews, Journey mapping, Competitive analysis, Funnel & cohort analysis, A/B test design, KPIs & North Star metrics, Google Analytics, Excel
Health product safety: Evidence-level labelling, Crisis routing, Non-diagnostic guardrails, Consent-based practitioner onboarding, Claim registers
Tools: Jira, Notion, Miro, Figma, GitHub, React, TypeScript, SQLite, Claude API, MCP, Cursor, Lovable

EXPERIENCE

Associate Product Manager — Adhyatm Sadhna Kendra, New Delhi May 2025 – Apr 2026

- Owned discovery through release for Evamastu, a digital mindfulness platform; wrote the full PRD and shipped a Parent Dashboard, a Child Wellness Assessment and 4 adaptive cognitive games.
- Built a cohort analytics system across 50+ participant cohorts; found 2 funnel drop-offs that drove an onboarding redesign, lifting consistency 20–25% in 6 weeks.
- Ran sprint planning and backlog grooming; scored 12+ feature requests with RICE and MoSCoW to hold roadmap discipline and cut scope creep.

Product Management Intern — Adhyatm Sadhna Kendra, New Delhi Nov 2024 – Apr 2025

- Ran parent and facilitator interviews that shaped the first product brief.
- Built the initial backlog and wrote user stories for the first assessment module.

Research Expert — Live Your Best Life (USA), Remote Sep 2022 – Jul 2024

- Led multiple product research projects end to end and developed research-backed wellness modules.
- Conducted 30+ structured user interviews; synthesized behavioral patterns and onboarding drop-offs into recommendations adopted across 3 major feature iterations.
- Ran competitive analysis and A/B tests on feature and content variants; tracked engagement for 500+ users and delivered weekly insight reports that shaped sprint prioritization.

HEALTH PRODUCT PROJECTS

Aaroh — AI root-cause health platform | Founder and product lead May 2026 – Present

- 20+ discovery interviews before a roadmap existed.
- 8 consented practitioners across yoga therapy, counselling psychology, nutrition and Ayurveda.

CareConnect — Post-discharge care accountability layer | Self-directed product build Sep 2026

- Pivoted from a caregiver marketplace to a care record, documented as decision D-01.
- Working MVP: React, Express, TypeScript, SQLite.

GharGyaan — Everyday self-care knowledge app | Self-directed product build Sep 2026

- Deterministic safety screening across 21 emergency categories runs before retrieval and AI.
- 214/214 tests: 206 scenario cases, 2 knowledge-base integrity checks, 6 output-validator checks.

PhonePe Smart Spend Coach — Feature design and growth case | Masai School × IIT Roorkee (academic) Aug 2026

- Academic capstone — not employment at, or work for, PhonePe.
- 40,000-user pilot funnel, 7.14% end to end — capstone-supplied case data.

EDUCATION

AI-Enabled Product Management Program — Masai School and IIT Roorkee faculty Dec 2025 – Aug 2026
MCA — Chaudhary Charan Singh University, Meerut 2022 – 2024
M.Sc. — S-VYASA University, Bengaluru 2020 – 2022
B.Sc. — University of Patanjali, Haridwar 2017 – 2020
